2021 TROJAN MS SOCCER CAMP

The Chambersburg Trojan Boys Soccer staff welcomes you to the 2021 Trojan MS Soccer Camp!

The Trojan MS Soccer Camp will consist of players from around our area that play at a high level, whether for club or the school. The Trojan focus is to challenge each player to get better in all aspects of the game. These aspects include; Physicality (learning how to use your body properly), Technical skills (touch on the ball, dribbling with pace, dribbling 1v1, passing and receiving), and Tactical skills (movement off of the ball, positioning on the field, as well as positional awareness). This week long camp will challenge you as a player. Our goal as a staff is to implement our culture as a High School Program into our youth. While we work hard, we will also be sure to have lots of fun, competitive skills competitions and mini games.

MEET THE COACH

"Chambersburg Trojan Soccer expects nothing but excellence from our staff down to our players. We strive to challenge our players so that there's no untouched potential by the time they leave our program."

— Coach Grove

COREY GROVE, TROJAN BOYS VARSITY COACH

This will be Grove's 10th year coaching for the Chambersburg School District; 10 years at the middle school, and this upcoming season will mark his 7th year as the high school varsity coach. During his time at Chambersburg, he has amassed a record of 64-30-13, which includes going to the District III Semi-Finals for the first time in school history as well as amassing the most wins ever by a coach in program history. Prior to coaching, Grove played soccer and ran track at Division I, High Point University. During his time there, he helped lead HPU to it's first ever Div I national ranking as well as its first ever Big South Championship. He also played for the D.C. United Super 20's program while a sophomore at HPU. Grove was a product of PA Classics, an academy program out of Lancaster, PA.

ALONG WITH GROVE, OTHER TOP COACHES AND PLAYERS IN THE AREA WILL BE PRESENT

CHAMBERSBURG TROJANS™
